SUMMARY

Aspiring full-stack developer with practical experience in Python, JavaScript, and multiple development frameworks. Comfortable working with ReactJS, NodeJS, and familiar with MongoDB to build functional and responsive applications. Interested in applying coding skills to real-world challenges and growing in a collaborative environment.

PROJECTS

REVOO – MULTIMEDIA PLATFORM

Apr 2025 – Jun 2025

Tech Stack: Node.js, ReactJS, MongoDB, TailwindCSS

- Developed a video streaming and sharing platform with full-stack deployment on Render.
- Built RESTful APIs using Node.js, optimized MongoDB data handling, and improved ReactJS performance.
- Enhanced user experience with dynamic UI elements including toasts and animated buttons.
- Live Demo [🔗](#)

LAPTOVERSE – E-COMMERCE APPLICATION

Tech Stack: JavaScript, HTML5, CSS3

- Built a scalable e-commerce platform as a college project using HTML5, CSS3, and JavaScript.
- Aggregated laptop listings and accessories from Amazon and Flipkart for better product discovery.
- Designed a responsive UI that adapts to multiple screen sizes and improves user interaction.

AWARDS AND ACHIEVEMENTS

2024 Top 3/50 Web Designing/Development Contest

2020 3rd/45 Scored 86% in VACA, Athner (Higher Secondary)

LEARNING INTERESTS

- Exploring Android development and mobile architecture.
- Practicing DSA problems daily in Python to strengthen data structures and algorithms.
- Passionate about building tools that solve everyday problems.
